Key shifts (old vs new)

Old:

- Special Education at National level narrowly focused on learning barriers
- Absence of a centralized Performance Management function
- Use of technology limited to administration functions

NEW:

- Inclusive Education and Enrichment—extends beyond special education to include culture, girl child, safe schools
- The co-designed structures better position the GES to achieve the mandate of "implementing pre-tertiary educational policies of the Government"
- Creation of a standalone function for ICT—Enables digitization of the learning Environment
- Inclusion of a Legal function in the national structure
- Inclusion of Community Relations—community liaison will be important for ensuring community engagement and participation
- Plans for institutionalizing the Pre-Tertiary Education Bill
